Additional Information

Please note

Finish

Recommendation:

Between spray coats and longer ones Break the paint off with a damp cloth wipe spray head, to glue the avoid spray head.

Definitely with belton clear coat for all effects (Art. No. 323 399) to achieve the granite effect to seal in the long term.

Use only in protected outdoor areas recommended. In the case of long-term weathering, the paint layer can be infiltrated by water and the paint will peel off. Please check plastic substrates for compatibility. All other substrates such as stone, clay, ceramics, glass, rattan/raffia, cardboard/paper should be primed with the belton universal primer.

The can is upright, dry and protected from chemical and mechanical influences to be stored and transported between 15 - 25° C.

The safety instructions on the can as well as all legal provisions of the storage location to note.
